EDUCATION

Chitkara University

Baddi, Himachal Pradesh

Bachelor of Science in Computer Science (CGPA: 8.37/10.00)

Expected June 2027

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, System Design

EXPERIENCE

Association for Computing Machinery

Jan 2025 – September 2025

Treasurer

Baddi, Himachal Pradesh

- Coordinated Technical Events and Student Initiatives with Cross-Functional Teams, managing planning and execution. .
- Led Planning and Task Tracking for chapter activities, ensuring timely completion of multiple parallel initiatives.

PROJECTS

Sentinel.AI - Multi-Agent RAG System | *Node.js, Express.js, RAG, Pinecone, OpenRouter*

- Built a multi-agent RAG system to reduce hallucinations by retrieving relevant information and validating generated responses before delivery.
- Implemented a retrieval and evaluation workflow using Pinecone for semantic document retrieval and multiple LLM agents for filtering, generation, and verification.
- Developed modular REST APIs to manage the retrieval and evaluation workflows.
- Evaluated the system on test queries and observed a reduction in hallucination rate from approximately 40% to 10% through retrieval filtering and response evaluation.

Intelli-Resume - AI Resume Analyzer | *Next.js, Node.js, Express.js, MongoDB, Hugging Face*

- Built an AI-powered resume analyzer that compares resumes with job descriptions and provides match scores, missing keywords, and improvement suggestions.
- Implemented resume upload and PDF text extraction using Multer, Cloudinary, and pdf-parse before sending resume content to an LLM for analysis.
- Developed JWT-based authentication and REST APIs with MongoDB for storing users and resume analysis results.

LOST-NO-MORE - Campus Lost & Found Platform | *Next.js, Node.js, Express.js, MongoDB, Cloudinary*

- Built a community-based lost-and-found platform where users can report lost or found items and connect with other community members.
- Implemented REST APIs for creating, retrieving, updating, and deleting reports with JWT-based authentication and user ownership validation.
- Integrated Multer and Cloudinary for image uploads and Resend for email notifications when new reports are created.

CERTIFICATIONS

Artificial Intelligence — Outskill

SQL Basics — Infosys Springboard

Java Fundamentals — Scaler

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), C++, Python

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, Authentication & Authorization

Databases: MongoDB, MySQL, SQL

Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems

Tools: Git, GitHub, Postman, VS Code, Manual Testing, API Testing, Debugging

Cloud: AWS (EC2, S3, ELB, VPC, DynamoDB)

AI & GenAI: RAG, Multi-Agent Systems, Prompt Engineering, Pinecone, OpenRouter
